courses developed

# HIGH QUALITY E-LEARNING SOLUTION FOR ALL YOUR NEEDS

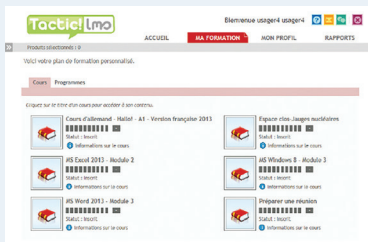

## TACTIC! LMS

Tactic! LMS is an LMS platform, a blended training management solution. It is also a mature, robust application that is compatible with both PC and MAC computers, tablets and smartphones. Tactic! LMS is geared towards organizations that want to provide a user-friendly training environment. We have upgraded the platform by adding many management tools.

## OFFICE AUTOMATION COURSES

Over 300 office automation training modules developed over the course of 25 years for applications such as Microsoft, Lotus Notes, Lync and OpenOffice with our tried and tested 4-step methodology. You do not have to install the program to use our courses, which makes large-scale deployments and learning management easier. Also, our multimedia training courses are interactive and easy to use.

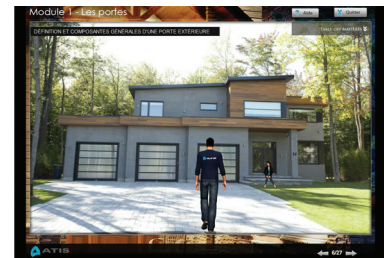

## BUSINESS CATALOGUE

A catalogue of close to 500 online training courses on various subjects, such as management, office automation, languages and even the health industry. We are proud to offer businesses a library of courses, upon request, that can be integrated into their LMS.

## CUSTOMIZED COURSES

E-learning pioneer Edu-Performance has produced, over the course of many years, many customized training courses for hundreds of companies in all fields worldwide. Our specialty lies in taking your challenges and transforming them into solutions that meet your needs. Our interactive multimedia courses can also be enhanced with high-quality 2D and 3D animation, and interesting scenarios.

## EDU-BABEL CAMPUS

The Edu-Babel campus is a training portal that is accessible to the general public and businesses that want a complete external solution that would grant them access to our entire online course library through Tactic! LMS. Through our e-commerce website, you will have access to your courses 24 hours a day, seven days a week.
