courses developed

Tactic! Imo' MAIN FEATURES

This platform is a portal with LCMS (Learning Content Management System) features. It conforms to SCORM and AICC standards, and is also compatible with the following browsers: Internet Explorer, Google Chrome, FireFox and Safari.

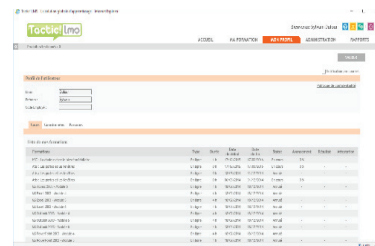

MY TRAINING

Quick access to your courses and training programs.

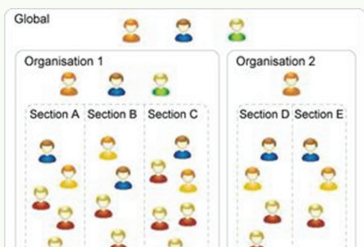

MY PROFILE

Your profile is fully managed and monitored. The portal gives you access to your training program history, scores, contact information, training activities, skills, training path and reflexive approaches, notes, etc...

ADMINISTRATION

This high-performance Tactic! LMS module allows you to manage organizations, people, enrollment, training and programs, catalogues and different learning solutions, in-class training and positions/skills. It also enables you to monitor learning, create, structure and launch blended training programs, and questions and questionnaires. The module displays the actual costs of the training (1%) as well.

REPORTS

Many standard reports are available, such as reports on individuals, courses, programs, enrollment, scores, costs and transactions. These reports are grouped according to content: administrative, educational, activity, training, questionnaires, surveys, scores and skills.
