DYNAMIC INTERFACE

COMPLETE LIBRARY

OFFERS CATERED TO YOUR BUDGET

An ergonomic interface featuring 3D animation, synthetic images, practical examples and narrated elements to help maximize the overall efficiency of your training process. You will be hooked. In addition, these training programs are compatible with e-Learning AICC and SCORM standards and accessible from our LMS or your own.

The collection as a whole puts an impressive number of themed programs at your disposal which will cater to your needs through modules that include all you will need for your company. These programs are accessible to you at all times and at your pace including the follow-up tools that will prove to be indispensable to your trainers.

In a reality where every budget must reach raised objectives, e-Learning provides an opportunity to lower costs all while still offering a service that is both quick and centralized. Combined with on-site training in hybrid training programs, you will have the best of both worlds which will greatly benefit your company.
