

Our catalogue was created in efforts to offer the best online training programs available in both English and French to today's companies. This catalogue is made up of upwards of 1,000 e-learning training programs which are accessible via Tactic! LMS: our powerful, hybrid-training platform.

## Management Training - IT Training - Office Desktop Training - Language Training - Health and Security Training

Crystallize your organization's know-how  
We will guide you from the creation to the distribution phase

Our vast library puts at your disposal an impressive array of corporate themes which contain course modules designed to meet all of your essential needs. These training programs are accessible from anywhere at any time and at your own pace. It also features reporting tools that will prove indispensable to your trainers.

With all of our courses being housed on Tactic! LMS, our training platform, access to our catalogue is simplified and your trainees will be able to review their sessions in their own personal file. These AICC and SCORM compatible training programs can also eventually be accessible from your LMS on your server.

In today's reality where each budget must find a way to meet heightened expectations, e-learning allows you lower your costs while still providing a quick and centralized distribution of your training initiatives. Regardless of your needs or the size of your trainee groups, we have the solution for you with the best return on your investment.

courses developed

# Course Catalogue (also available in French)

More than 1,000 multimedia and interactive training modules !

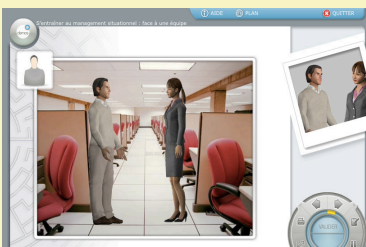

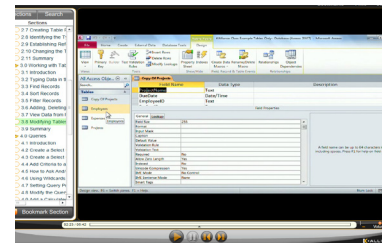

## OFFICE AUTOMATION

In order to best answer the needs of trainees, our office automation online training catalogue counts over 300 interactive modules and videos to meet your requirements. Made up of several elements including those for training, evaluation and even manuals, they cover all the essentials of Microsoft Office in addition to different versions of Windows and applications like Lotus Notes, Lync, OneNote, SharePoint, general IT and the Internet.

## IT TRAINING

This videos make it easy and efficient to train employees in the latest technologies with their self-paced training that covers a wide range of topics including Microsoft Office programs, Mac OS, networking, web development, business development, and more (CISCO, CITRIX, COMPTIA, ECDL, ISACA, ISC2, ITIL, JAVA, ORACLE...). These courses offer a cost-effective and flexible approach to learning technical and business skills that keep your team agile.

## MANAGEMENT

In the management section, we count upwards of 100 interactive training programs covering a spectrum sectors like management, communications, personal development, human resources, marketing, IT and its security, buying, time management, customer service and finance. Comprised of practical cases and examples, 3D sm-imulations, and evaluation modules. Each training module is 30 to 60- minute long.

## LANGUAGES

We offer an array of online language training products and services, including language courses and language tests. What sets our content apart is its academic quality and its ease of integration with remote learning tools from both an academic and technological standpoint. Offered languages: English, Italian, German, Arabic, Spanish as well as French as a second language.

## HEALTH AND SECURITY

If health and security in the workplace is an area of concern for you, we have the solution to your needs. With over 200 titles to choose from, we cover most problems linked to health and security. At 90 minutes per title, you will know everything there is to know about fall prevention or SIMDUT.
